How a mandate comes together

- **Objective first** — income, protection, liquidity or growth; never product-led.
- **Suitability** — risk appetite, horizon & constraints documented.
- **Design** — MONIDR™ models scenarios; specialists shape the structure.
- **Decision** — an evidenced recommendation; the final call is yours.
- **Stewardship** — positions monitored & reported through life.

Which framework fits the objective

Defined-outcome exposure to markets

Yield on reserves

Better yield/liquidity on cash → FEFL™
